

PROFILE

Also known as EON75, I am a lifelong artist working in aerosol, acrylic, watercolor, spray paint, ink, resin, and other mediums. My work is heavily influenced by the free-flowing forms of nature and the ocean, which connect with the viewer in an intrinsic, spiritual way.

Although a student of architecture, my first love has always been art. For the past decade, I have traveled through a dozen countries on three continents creating art. Around San Francisco, I can be found sketching outdoors and being influenced by Mother Nature, my ultimate muse.
